

We're back together. Let's stay together.

Let's keep the risk of COVID-19 low. Follow these simple steps to stay healthy and safe.

Get your first and second dose of COVID-19 vaccine as soon as you are eligible.

Wash your hands often, using soap and water or use hand sanitizer.

If you feel sick, get tested for COVID-19 and stay home until you are well.

Wear a mask in indoor public settings and reduce your risk. In some businesses and communities, masks may be required - be prepared.

If you're gathering with large groups of people - meet outside. Practice physical distancing and don't share food.
